The company has installed 21 solar arrays across its business portfolio, contributing to 11% of the total solar energy production in the Cayman Islands. This initiative reduces the reliance on fossil fuels and supports the island's efforts to diversify its energy sources and enhance energy security.

Since then, we have expanded our footprint to Southeast Asia countries and Taiwan. We have also embarked on our sustainability journey in 2018 in support of urgent global call to transition the energy system from fossil fuels to renewable sources. Going forward, in line with our climate goals, we will only be investing in renewable energy system.

The annual conference will bring together over 120 key players from the energy sector, including industry experts, government officials, regulators, utility representatives, renewable energy innovators, and stakeholders from across the Caribbean under the theme "Transitioning Together: Informed, Inclusive, Innovative."
