

Does France have a solar farm?

France has renewable energy sources, including solar farms. France yesterday adopted a law setting an ambitious target of covering 32% of its energy demand with renewable sources by 2030.

What is a 'territory' in French energy policy?

The notion of 'territory' has only very recently attracted interest in the French energy policy arena, as attested by the 2014 National Debate about the energy transition and the July 2014 draft law on it.¹ 'Territory', 'local' or 'collectivity' here signify a realm that has a variable perimeter.

Is a French energy policy localism a risk-and-error transcalar process?

The paper bears witness to the emergence of a French energy policy localism. It presents a sample of significant local rural experiences in the climate energy domain in rural France. These experiences are risky, trial-and-error transcalar processes. They amount to a different way of doing energy policy.
