China accounts for around 59% of the global ESCO market. The history of the Chinese ESCO market goes back to 1998, over a decade after the appearance of ESCOs in the US and other parts of the developed world. The rapid increases in the number of ESCOs in the market and their growth in market revenue make China a remarkable success [...]

An ESCO, on the other hand, bears the risk that it performs as calculated, as it is remunerated based in part or in whole on that basis (Global ESCO Network, 2023). While there are many ways in which the performance risks can be distributed, the Global ESCO Network recommends that in principle the performance risk of an installation should fall ...
