Douglas council is to start producing its own sustainable solar energy. The local authority has approved funding for a solar farm to power some of its facilities. The generation facility would be built in Braddan and have a life span of around 20 years. It's thought the savings will mean it'll effectively pay for itself within five to seven years.

At LuSEC, we are leaders in the development and management of large-scale solar farms dedicated to generating clean, renewable energy. Our commitment to sustainability and innovation drives us to create efficient, high-output solar power solutions that contribute significantly to the global energy landscape.
