

Mirai solar Portugal

Mirai Solar is disrupting the global greenhouse market by replacing existing shade cloths with foldable, retractable, transparent solar modules. Our customizable, lightweight technology can also be applied to a variety of building integrated solar projects.

Mirai Solar's technology is a retractable solar panel system, specifically engineered to meet the demands of both greenhouse and open-field agriculture. The retractable design allows panels to fold into a protective housing, which shields them from weather events like storms and hail that could damage photovoltaic cells and environmental ...

Mirai Solar, a solar technology startup of King Abdullah University of Science and Technology, is disrupting the greenhouse market by developing retractable, semitransparent photovoltaic shade screens that convert blocked sunlight into electricity .
