

Nauru axiom exergy

Axiom Cloud uses AI to transform how refrigeration is managed by grocery and cold storage companies across many sites. Lower leak rates, save money, comply with regulations, and reduce service calls.

However, exergy is a well-defined concept in thermodynamics, and understanding it is the first step to understanding why our CTO and co-founder, Anthony Diamond, decided on the name Axiom Exergy. Exergy takes its basis from the Second Law of Thermodynamics, which states that the total disorder of an isolated system will tend to ...

Axiom Exergy's Profile, Revenue and Employees. Axiom Exergy develops and commercializes smart refrigeration batteries for supermarkets, cold-storage facilities and food processors. Axiom Exergy's primary competitors include Cool Runnings International, Inc., Viking Cold Solutions, Jensonutah and 8 more.

Nauru axiom exergy

An industry first, the Refrigeration Battery makes it possible for supermarkets, cold-storage facilities, and food processors to intelligently store and deploy refrigeration. The battery plugs into your refrigeration system, just like a display case. It stores thermal energy produced by your refrigeration system during off-peak hours, and deploys it during on-peak hours. As a result ...

Patrick Castles is the COO at Axiom Exergy. Prior to this, they were the Vice President Operations at Axiom Cloud from June 2021 to January 2022. Patrick has also served on the advisory board of NOETIC from January 2019 to December 2021. From January 2015 to December 2020, they were the Operations & Data Science at ACTION EMBROIDERY CORP.
