Trading in Over the Counter ("OTC") equity securities carries a high degree of risk and may not be appropriate for all investors. OTC equity securities may be "thinly traded" or more illiquid than exchange-traded securities, which tends to increase price volatility and impair your ability to buy or sell within a reasonable period of time without adversely impacting execution price(s).

The Company's retail electric service territory covers an area of north central New Mexico, including the cities of Albuquerque, Rio Rancho & Santa Fe, Los Lunas & Belen, Las Vegas Alamogordo, Ruidoso, Silver City, Deming, Bayard, Lordsburg & Clayton and certain areas of southern New Mexico.

A stock uplisting is when a stock goes from being listed on the OTC markets to a major exchange (like the Nasdaq or New York Stock Exchange). OTC markets are broker-dealer networks that tend to be volatile. Trading on a standard exchange often means more trading volume, less volatility, and more liquidity.
