Dyness has built a full life cycle product matrix for industrial, commercial and residential energy storage, including rack-mounted energy storage, optical energy storage, liquid-cooled energy storage containers, distributed energy storage cabinets, etc. Dazhong Digital Energy has provided safe, reliable and high-quality products and services to more than 500,000+ users in 100+ ...

DYNESS battery DL5.0X is tailor-made for residential and light C& I in the South African market. The DL5.0X has a high dis-charge rate of 1.5C, providing users with greater flexibility when using high-power loads off-grid. This LFP battery supports remote software update and APP monitoring and provides mul-

Dyness DL5.0C adopts economic design, and is tailor-made for residential and small commercial application. This LFP bat tery module supports remote upgrade and APP monitoring, and provides multiple installation methods.

Dyness DL5.0C adopts economic design, and is tailor-made for residential and small commercial application. This LFP battery module supports remote upgrade and APP monitoring and provides multiple installation methods. It is scalable from 5.12kWh to 256kWh (max. 50 modules in parallel), providing various energy options

DYNESS DL3.6 is low-voltage energy storage product which adopts high safety LFP technology. With 3.6 kWh each, it can support up to 180 kWh with 50 modules connected in parallel. It also supports remote update & easy monitoring. Meet this efficient product with perfect performance.
