Who makes Northvolt batteries?

Northvolt manufactures lithium-ion battery cells used for electric vehicles and stationary storage. Volkswagen Group is its largest shareholder after an investment of roughly \$1 billion.

Why did Northvolt go bankrupt?

Northvolt, a Swedish-based lithium-ion battery manufacturer backed by Volkswagen Group and others, has filed for bankruptcy protection in the United States. The company was hailed as one of Europe's biggest hopes against China's EV battery supremacy. Northvolt's financial situation deteriorated in a matter of months.

What is Northvolt & how does it work?

Northvolt has led a wave of European startups investing tens of billions of dollars in battery production to serve the continent's automakers as they switch from internal-combustion engines to EVs.

Will Northvolt fight China's EV battery supremacy?

The company was hailed as one of Europe's biggest hopes against China's EV battery supremacy. Northvolt's financial situation deteriorated in a matter of months. Swedish-based Northvolt, which was seen as one of Europe's best shots at fighting off China's electric vehicle battery supremacy, filed for bankruptcy yesterday.

Is Northvolt a homegrown EV battery champion?

A partner of major European automakers, Northvolt produces lithium-ion batteries for the blooming electric vehicle industry, which has recently been rocked by intensifying competition from the likes of China. The Stockholm-based business has long been regarded as Europe's best hope of building a homegrown EV battery champion.

Does Northvolt have a liquidity problem?

"Northvolt's liquidity picture has become dire," the company said in its Chapter 11 petition, filed in U.S. Bankruptcy Court in Houston. The company, which has operations in California, has about \$30 million of cash, which can support its operations for only about a week. It has \$5.8 billion in debts.

A host of issues has plagued Northvolt, the most key being its inability to meet production targets for shippable battery cells. In June, carmaker BMW --which is a Northvolt shareholder--canceled a EUR2 billion (about \$2.1 billion) contract due to the company's failure to meet its agreed delivery of battery cells, Reuters reported.

People involved in the Northvolt saga said options were narrowing for Europe to address its dependence on China and other parts of Asia for the technology and materials that will be critical as...

Northvolt AB is a energy storage company focused on the development and manufacturing of lithium-ion

battery cells and complete battery systems. Founded with the mission to enable the future of energy through the creation of the world's greenest battery cell, Northvolt aims to accelerate the transition to a decarbonized future.

Northvolt, the Swedish maker of battery cells for electric vehicles, said on Thursday it has filed for Chapter 11 bankruptcy protection in the U.S., dealing a blow to Europe's hopes that its...

9 ???&#0183; Swedish electric-vehicle battery maker Northvolt said on Friday it expects to line up additional bankruptcy financing by late January after engaging with over 100 lenders and potential investors.

9 ???&#0183; Northvolt raised more than \$10 billion in an effort to mass-produce EV batteries and compete with experienced and deep-pocketed Chinese battery makers. The company, which employs around 6,600 ...
