

DIF Capital Partners (via its DIF Infrastructure VI fund) has signed an agreement to acquire 60% of Novar, the leading developer of large-scale sustainable energy systems in the Netherlands. The transaction marks the start of a long-term collaboration to deliver sustainable and innovative renewable energy solutions.

Vi antog namnet Novar år 2013, men vi uppstod inte bara från ingenstans. Vi har många års erfarenhet som marknadsledare inom storskaliga solprojekt och som experter på energisystem. Resan startade 2014 under namnet Solarfields med ambitionen att etablera mer solenergi. Vårt arbete är nu bortom enbart solenergi; vi arbetar med ...

Novar heeft voor twee zonneparken in Flevoland gekozen voor een niet-standaard aansluiting via het GDS van Smart Grid Flevoland.. "Vanwege alle juridische en financiële obstakels heeft een reguliere aansluiting bij een netbeheerder nog wel onze voorkeur als die optie er is", vertelt Wannes Deville, Sr. Grid Specialist bij Novar.

Based in New Jersey, USA, Honeywell International is a \$30 billion diversified technology and manufacturing corporation serving customers worldwide through five global divisions: aerospace products and services; automotive products; turbochargers; and specialty materials () mentioning on Honeywell's acquisition of the UK-based ...
