NRG Systems Inc has developed a range of innovative products that help to monitor and optimize renewable energy systems. These products include wind sensors, solar irradiance sensors, and data loggers, which are used to collect and analyze data from renewable energy systems. NRG Systems Inc is also a major player in the wind energy sector.

NRG Systems" solar resource measurement solutions deliver the data you need to plan and successfully operate your utility-scale photovoltaic project. Our turnkey approach means our solar solutions include purpose-built, configurable hardware and software as well as a range of services to help you optimize everything from ...

NRG Systems is the global leader in wind and solar resource measurement and intelligence. Their hardware, software, and related services empower many of the world's largest developers to make informed decisions and improve efficiency at all stages of project development.

If you produce oil, buy and sell oil properties, or loan to companies involved in oil production, then NRG Systems TM, working in conjunction with Sandia National Laboratories, offers an array of opportunities you cannot afford to ignore.

NRG Cloud. NRG Cloud is the intuitive, web-based data management platform for NRG's industry-leading resource measurement hardware. NRG Cloud offers an unparalleled data ecosystem that transforms raw wind and solar measurement data into actionable insights.

About NRG Systems. NRG Systems is the global leader in wind and solar resource measurement and intelligence. Their hardware, software, and related services empower many of the world's largest developers to make informed decisions and improve efficiency at ...

Wind. NRG Systems has been designing and manufacturing wind measurement solutions for over four decades. We pioneered the complete system approach to wind resource assessment and have gone on to apply the concept of turnkey solutions to all stages of the project lifecycle, including power performance testing, wind plant optimization, and monitoring.

NRG Systems is the global leader in wind and solar resource measurement and intelligence. Their hardware, software, and related services empower many of the world's largest developers to make informed decisions and improve efficiency at ...

Founded in 1982, NRG Systems has grown in leaps and bounds into one of the most progressive companies to be found. Employing more than 110 people, the first phase of its 75,000 square-foot headquar-ters and
