Crafted with Grade A cells, which offers up to 15000 cycles, ensuring a longer service life that exceeds standard options. This battery is tailor-made for solar energy systems, delivering a high return on investment over the years

Q4: Can the battery be put in the box? A4: Yes, but there must be a radiator. Before we have a customer to use in the box and placed it under good sun. He didn't add radiator, as a result, the battery exceeded the temperature resistance value and burned directly, resulting in the destruction of the battery.

ECO-WORTHY LiFePO4 12V Lithium Iron Phosphate Battery has twice the power, half the weight, and lasts 8 times longer than a sealed lead acid battery, no maintenance, extremely safe and very low toxicity for environment. Our line of LiFePO4 offer a solution to demanding applications that require a lighter weight, longer life and higher capacity battery.
