NEW YORK, Aug. 09, 2021 (GLOBE NEWSWIRE) -- GridMarket, Sint Maarten, and Island Resilience Partnership (IRP) are thrilled to announce a public private partnership dedicated to helping Sint Maarten transition to clean, resilient, and affordable energy generation. Sint Maarten joins the Independent State of Samoa, the Kingdom of Tonga, and other governments around ...

Electricity to Saint Martin is provided by a fuel power plant. Renewable energy is not used on the island, except for very few solar panels. Our project of Waste-to-Energy (PI project) will produce about 8% of the total energy consumption.

John Suchand joined Copperbeck Energy Partners LLC upon its formation in August 2017 and currently serves as Vice President. Prior to Copperbeck, from 2010 to 2017, John served in various capacities with Martin Midstream Partners L.P. and Martin Resource Management Corporation with his most recent role as Director of Finance of both companies.

Saint-Martin is located in the French Antilles. The island is divided into a French part and a Dutch one. The population of the French part is about 36,000. An increase is observed during the tourist season between November and April. The main economic activity of the island is based on tourism. Power supply Electricity to Saint Martin is provided by a fuel power plant.

This initiative represents NV GEBE's commitment to aligning its operations with modern energy standards, enhancing the quality of service for Sint Maarten's residents and visitors, and contributing to global efforts towards sustainable energy solutions.
