

Description. A complete kit for protecting solar panel installations from birds nesting underneath. We have given the optional extra above to add Antistatic Gloves due to a few installers suggesting they get small shocks whilst installing.

Bird proofing solutions for solar panels are built to last, often for around 10 years or longer. However, it depends on the type of bird proofing you choose - for instance, bird spikes are typically a lot more resilient and durable than bird mesh, and can last longer than 15 years - sometimes as long as the solar panel system itself (i.e. 25 years or more).

2. Bird B Gone Solar Panel Bird Deterrent Mesh Pic Credit: Bird B Gone. Bird B Gone Solar Panel Bird Deterrent Mesh comes in a 100 ft roll with two width options--6 and 8 inches. You can choose the right size by measuring the space between your roof and the panel.
