Will the Virgin Islands reduce fossil fuel use by 60% by 2025?

The Virgin Islands, with support from the U.S. Department of Energy (DOE) and the Office of Energy Efficiency and Renewable Energy (EERE), have set a goal of reducing fossil fuel use by 60% by 2025.

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

What is the main source of energy in the Virgin Islands?

In the U.S. Virgin Islands, nearly all of the energy is provided by imported petroleum products, with about 70% of petroleum consumption being distillate fuel and residual fuel.

Is the US Virgin Islands a good place to start a wind farm?

The US Virgin Islands have been recognized as a regional leader in clean energy due to the success of collecting wind resource data for its first commercial wind farm. DOE's National Renewable Energy Laboratory has collected the necessary data for this project.

How many solar energy systems are installed in the Virgin Islands?

Nearly 1,500 solar energy systems have been installed throughout the territory. 15 MW of distributed solar PV are either in place or under construction. As a result, the Virgin Islands government has authorized \$35 million in funding to install lighting and water retrofits in 34 more schools.

What is the average price of electricity on Virgin Island?

The average price of electricity for US Virgin Islands residents was approximately 41 cents per kilowatt-hour in early 2022. This was almost three times higher than the U.S. average power price of 15 cents per kilowatt-hour.

The U.S. Virgin Islands received \$9.6 million to develop, promote, implement and manage local energy efficiency programs. The U.S. Virgin Islands is using this funding to sponsor a variety of projects that reduce energy costs, improve the efficiency of ...

The Virgin Islands Energy Office (VIEO) is poised to experience a significant increase in federal support, following a \$14 million funding boost this year. The agency is looking ahead to a substantial influx of over \$150 million in 2024, as noted in a December 29 announcement. This financial aid is largely due to the implementation [...]

U.S. Virgin Islands Energy Road Map: Analysis Eric Lantz, Dan Olis, and Adam Warren. Technical Report NREL/TP-7A20-52360 . September 2011 . NREL is a national laboratory of the U.S. Department of Energy,

In response to escalating energy challenges, Governor Albert Bryan Jr. of the United States Virgin Islands has issued Executive Order No. 537-2024, declaring a State of Energy Emergency. The proclamation comes ...

This infographic highlights progress the U.S. Virgin islands has made toward meeting its goal of a 60% reduction in fossil fuel use by 2025. Click on the link below to download a full-resolution version.

In a significant step forward for renewable energy in the U.S. Virgin Islands, Honeywell announced its collaboration with VI Electron on Tuesday. This partnership marks the beginning of an ambitious plan to implement the first of several advanced battery energy storage solutions (BESS) in up to six strategically placed solar parks across the territory.

U.S. VIRGIN ISLANDS -- Governor Albert Bryan Jr. is leading the charge towards a greener and more resilient future with an unprecedented collaboration between global technology leader Honeywell and VIElectron, a CB Loranger Company. This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery ...

The U.S. Virgin Islands (USVI) ... Improve Efficiency, and Cut Monthly Energy Use Nearly 30%; U.S. Virgin Islands Petroleum Price Spike Preparation; Wind Power Opportunities in St. Thomas, USVI: A Site-Specific Analysis. Office of Energy Efficiency & Renewable Energy.

Electric Vehicle Summit 2024: Pioneering Sustainable Transportation in the Virgin Islands. U.S. VIRGIN ISLANDS - Virgin Islands Energy Office Director Kyle Fleming is pleased to announce that coming next month the territory will play host to the 2024 Electric Vehicle S... Read More News.
