Der Volkswagen Konzern und sein im Juli 2022 gegründetes Batterie-Unternehmen PowerCo SE wollen den Aufbau ihres weltweiten Batteriegeschäfts durch die zügige Expansion nach Nordamerika beschleunigen.

BRISBANE, Australia, November 25, 2024 - NOVONIX Limited (NASDAQ: NVX, ASX: NVX) ("NOVONIX" or the "Company"), a leading battery materials and technology company, and PowerCo SE ("PowerCo"), today announced the signing of a binding offtake agreement for a minimum of 32,000 tonnes of high-performance synthetic graphite material.

The automotive corporation has set up a new company called PowerCo which will be responsible for production at the facility - set to begin in 2025 - and for global marketing of battery products for the group.

The Volkswagen Group is bundling its global battery activities in the European company (SE) PowerCo. Headquartered in Salzgitter, the company will manage international factory operations, the continuous development of cell technology, the vertical integration of the value chain and the supply of machinery and equipment to the factories.

PowerCo SE, a key player in the battery manufacturing industry, has announced long-term agreements with green energy producers Alterric and EnviTec Biogas AG. The agreements, set to begin in 2025, will supply the company's Salzgitter cell factory in Germany with approximately 240-gigawatt hours of wind energy annually from Alterric and 65 ...

PowerCo SE is a key player in the development of the battery value stream in North America. Under the management of CEO Frank Blome, the company is responsible for the Group's global battery activities and will safeguard supplies of battery cells for Volkswagen's e-mobility offensive.

The Volkswagen Group is bundling its global battery activities in the European company (SE) PowerCo. From Salzgitter, the company will, with immediate effect, manage international factory operations, the further development of cell technology, the vertical integration of the value chain and the supply of machinery and equipment to the factories. Looking ahead, further products ...
