How will convergent's solar and energy storage systems impact Puerto Rico?

Convergent's solar and energy storage systems are expected to enhance Puerto Rico's grid resilience, lower energy costs, and reduce the need for fossil fuel generation

How will convergent contribute to the modernization of Puerto Rico's electric grid?

"We look forward to contributing to the modernization of Puerto Rico's electric grid and advancing its clean energy goals." Convergent's solar-plus-storage installation in the municipality of Coamo will be a 100 MW solar PV system paired with a 55 MW/55 MWh battery storage system.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Why did Puerto Rico get a power outage?

The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a powerful Category 4 storm in 2017, razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.

2 ???· These systems would generate power directly to Puerto Rico's grid and provide energy storage benefits necessary for Puerto Rico's goal of achieving 100% clean energy resources by 2050.

Convergent Energy and Power, a leading provider of energy storage solutions in North America, announced that the company has received a conditional commitment from the U.S. Department of Energy Loan Programs Office (LPO) for a loan guarantee of up to \$559.4 million for its subsidiaries to build a solar photovoltaic (PV) system with an integrated battery storage ...

3 ???· The Puerto Rico Energy Public Policy Act (Act 17) requires Puerto Rico's utility to cease all coal-fired energy generation by 2028 and shift to a 100% renewable energy mix by 2050.
