Rezolv Energy is an independent renewable energy producer focused on building a sustainable power portfolio in Central and South Eastern Europe, involving wind, solar, and battery storage solutions. The company emphasizes providing subsidy-free renewable energy at stable prices for industrial and commercial users, ensuring access to reliable

Replacing fossil fuel production with renewables delivers the maximum possible emissions reduction impact, helping countries meet their climate targets and improving air quality. It also enhances energy security, which has become a major political priority across this region. Accelerating the energy transition is an economic priority too.

Reliance on fossil fuels is no longer viable. A combination of rising costs, growing security concerns and the need to meet climate targets is causing a rethink on energy usage and production across Europe. Founded in 2022, Rezolv was created to address these challenges and accelerate the energy transition.
