

# Rowan energy New Caledonia

Rowan Energy's Vision for Sustainable Growth. The impact of Rowan Energy's initiatives is far-reaching. They are helping reduce carbon emissions by promoting renewable energy and providing a new model for energy consumption and production in the UK. Looking to the future, Rowan Energy's vision is ambitious and clear.

The Rowan energy solution has massive wide-ranging potential. Once the pilot scheme has proven the process is easy, quick, and gives great ROI to users, we expect to start a national roll-out....

The brand new Rowan Rewards system is ideal if you are an existing solar user or want a new installation. You can still use that electricity to power your home or business, store it in a battery for later use, or sell it back to the grid exactly as you currently do.

The brand new Rowan Rewards system is ideal if you are an existing solar user or want a new installation. You can still use that electricity to power your home or business, store it in a battery for later use, or sell it back to the grid exactly as ...

Strong energy dependence linked to the metallurgical sector. New Caledonia's energy mix is 97.7% fossil fuel, including 54.1% petroleum products (mainly fuel oil and diesel), 43.6% coal, and 2.3% renewable energies. This high energy dependence is directly linked to the metallurgical industry which consumes 61.2% of the total energy consumption of the territory.

In the future, customers will use Rowan Coin to buy and sell their energy, pay for their energy bill, offset their carbon footprint using Rowan NFT Carbon Certificates, charge their EVs, and pay for their EVs to be serviced - plus a whole number of other use cases. Our cryptocurrency is a fundamental part of our business infrastructure.
