

Saint Martin solar system government scheme apply online

How do I get STCs for my solar system?

To be eligible for STCs, your system must be installed by a Solar Accreditation Australia accredited installer. The solar panels and inverter must be on the lists of Clean Energy Council approved modules and inverters. The value of STCs you receive is based on the estimated amount of electricity your solar system will generate until 2030.

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households.

Do you qualify for a solar subsidy?

There are subsidy schemes available in different states and territories, as well as some local government areas, to help with the upfront cost of installing solar and batteries. These are in addition to STCs. Depending on where you live, you might qualify for: a rebate swap, where you receive a solar subsidy instead of bill rebates.
