I've been using PV Solar Panels off-grid for about 20 years. I have built a number of devices which can use the DC power directly rather than convert it to 230v AC mains first. I even have solar-powered chickens with timed coop-lighting which fools them into thinking they have Mediterranean day-lengths.

Community: Calendar: Today's Posts: Search: Log in Page 1 of 2: 1: 2 > Thread Tools ... I used the same "stock" solar panel aluminum brackets and glued the brackets to the roof with VHB tape. 06-22-2023, 10:21 PM ...

I used the self drilling screws - 5.5x25mm for the vertical fixing into the roof & 5.5x38mm for the horizontal fixing into the panel frame (the support brackets are thicker horizontally so 25mm aren't long enough).

This thing is a customisable support bracket for aluminium framed solar panels, which slots onto the frame under the panel. Print it any way you like. I needed a bracket for a small 10W solar panel that I was using on a self contained automatic watering system for my veg patch, so I came up with this.

Self-operated solar panel bracket in the community
