solar lighting system comes complete with solar power assembly, fixture, bracket, and all mounting hardware to attach to a pole. ...

SEPCO is the worldwide leader in solar lighting and off-grid solar power systems. We are helping the world go green by taking the lights off the grid. As demonstrated through thousands of projects around the world, SEPCO solar light systems feature rugged commercial-grade construction combined with unparalleled quality, performance, reliability ...

SEPCO is the leading manufacturer of commercial and remote power systems. With over 30 years of experience, SEPCO is known as the pioneer in the industry. While our roots date back to 1979, we have been exclusively manufacturing commercial solar lighting and off-grid solar power systems under the SEPCO name since 1994.

As a commercial solar lighting pioneer and industry leader for over two decades with 1,000's successful solar lighting projects around the world, SEPCO is the ideal partner for your solar lighting project. SEPCO Founder and President Steve Robbins designed and patented the world's first commercial solar street light.

So, you ordered your SEPCO solar lighting system and are awaiting the shipment to arrive. Once it shows up, it will be on one or more pallets, depending on the system size and how many were ordered. Once it arrives, all packages have been inspected, and the components are ready for installation, the best thing to do is go back through the installation manual for a quick read.
