The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource database.

Serbia's Path Toward Renewable Energy Independence. Currently, over 60% of Serbia's electricity comes from fossil fuels. Solar energy offers a practical, scalable solution for diversifying energy sources. This shift to solar not only benefits the environment but also strengthens the economy by fostering a local green energy supply.

35 Years Experience & Technical Expertise From large scale commercial and residential solar PV systems in South Africa, Botswana, the Indian Ocean Islands and Zambia. Distributors of Leading Products We are the proud distributors of some of the worlds" leading solar brands and products. Measurable Results & Excellent Service We provide our clients with ...

Like any other market, the solar power industry in Serbia has manufacturers, solar distributors, wholesalers, retailers, and consumers. All parties depend on each other to thrive and facilitate the production, sales, and consumption of solar energy products. Our focus is the solar distributors in Serbia, and there"s much to know about them.
