

Why is energy security important in the Slovak Energy Strategy?

With high dependency on energy imports, energy security is one of the priority topics of the Slovak national energy strategies. This provides a good basis for further developing the energy security dimension in the final plan, with objectives and policies and measures clearly described.

What are Slovak Republic's energy policies?

Slovak Republic's recent energy policies have made significant progress. Along with its neighbours and with support from the European Union, the country has strengthened cross-border connections for electricity, natural gas and oil, improving its ene

Does Slovakia have a coal power plant?

Slovakia originally slated its coal phaseout for 2030 but has now expedited this to mid-2024. Slovakia stopped production at its last coal-fired power plant this week. Its electricity will now come almost entirely from nuclear and renewable sources. The Vojany power station, located in the Michalovce district in eastern Slovakia, opened in 1966.

Does Slovakia have electricity interconnection capacity?

Slovakia has significant electricity interconnection capacity compared to its electricity generation capacity. The planned increase of new nuclear capacity is accompanied by new connections, e.g. with Hungary, aimed at reducing congestion. The interconnection level is projected to be at 52% in 2030. The

Establish a high-level steering committee to monitor and evaluate progress in the implementation of the energy and climate strategy to ensure that the Slovak Republic meets its 2030 energy and climate targets and climate neutrality by 2050.

Zkaznaci, ktori mali so spoločnosťou SLOVAKIA ENERGY uzatvorenú dodávkovú zmluvu, ale dosiaľ od našej spoločnosti neodobrali žiadnu komoditu, neprešli do režimu DPI. Odpovedáme kontaktovať svojho stavovateľa, za celom potvrdenia zmluvného vzťahu. Okrem dodávovej zmluvy som mal u Vás aj poistenie.

S uvedením tejto novej reklamnej kampane sa SodaStream stáva ...

So far, Slovak energy policy developments have been reactive to either geopolitical threats or pressure from EU legislation. Low hanging fruits have been collected. However, further progress in energy transition will require more effort, although the Slovak position towards the Winter Energy Package does not bring much optimism in this respect.

Slovakia: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across ...

European Union (EU) since May 2004, and since 2007 has been a member of the International Energy Agency (IEA). The Slovak Republic adopted the joint European currency, the euro, in January 2009. In November 2014, the Slovak Government approved an Energy Policy (EP SR), setting targets and
