With renewable energy comprising 71 per cent of French Guiana's energy matrix, President of the Collectivité territoriale de Guyane, Gabriel Serville, who is currently leading a trade mission to Guyana, has indicated his country's willingness to lend its expertise to Guyana's renewable energy efforts.

CEOG will provide cheaper and firm power all year long, day and night, to 10 000 homes in Western Guiana. Combining a photovoltaic plant and mass storage of energy in the form of hydrogen, CEOG is the alternative to a classic diesel power plant.

French Guiana is an overseas department of France, located on the northeast coast of South America. The Sable Blanc BESS will timeshift the solar PV to the evening once production tails off under a 20-year tariff agreement and will replace diesel generator capacity.

French Guiana: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
