

Solar Billboard Bracket

What is a solar Billboard light?

SOLTECH's solar billboard lights have an all-in-one design and come complete with a self-contained solar power assembly, sized to run the specified solar fixture wattage. Our BROADWAY provides cost savings by eliminating the need to trench standard electric wires for installation and providing no electric bill for the life of the system.

What is a soltech Billboard lighting system?

SOLTECH billboard lighting systems provide lighting for large and small billboards, entrance signs, building name signs, and other similar items without the need for standard utility power.

Are solar-powered signs a good alternative to a mains power supply?

Many signs are located some distance away from a mains power supply. Therefore using a solar-powered LED sign, billboard or hoarding light system is an ideal solution to this problem and it's also a 'green' alternative to using mains power. All our solar sign light fittings are easy to install, no electrician required!

Do billboards need to be lit at night?
