Who is solar focus?

We pride ourselves in offering excellent technical support after installation of Solar water Geysers, Heat Pumps, Photovoltaic systems and other energy saving devices. Solar Focus is actively helping companies and individuals in and around Nelspruit and White River, to reduce their dependence on South Africa's sole electricity utility , Eskom.

What products does solar focus offer?

Products offered include Solar Water Heaters, Heat Pumps, Solar Power Systems and LED Lighting Solutions. With years of experience and thousands of successful installations behind us, Solar Focus has to be at the top of your list of service providers in this industry.

What is the largest solar project in South Africa?

This is currently the largest of the solar projects in South Africa. The solar farm, which comprises 325,000 solar panels, sits on 150 hectares of land (277 acres).

of the available solar resource in South Africa and the region. Measurement data and maps are publically available, free of charge at Solar resource map for South Africa, Lesotho and Swaziland (annual sum of global horizontal irradiation, kWh/m<sup>2</sup>), GeoModel Solar REIPPPP Focus on solar PV | June 2020

Solar Focus is a supplier and installer of a range of renewable energy products suitable for both domestic and commercial applications. Products offered include Solar Water Heaters, Heat Pumps, Solar Power Systems and LED Lighting Solutions.

Discover Grid Africa, a leader in delivering custom solar projects across South Africa. We design and implement tailored solar energy solutions for businesses, focusing on efficiency, sustainability, and innovation to support your company's clean energy goals.

South Africa has abundant solar resources, making it a prime location for the development of solar energy projects. The country has set a target of generating 18 GW of renewable energy by 2030, with solar energy expected to make up a significant portion of this target. The government's Renewable Energy Independent Power Producer Procurement ...

Solar Focus is an authorised installer of three heat pump brands, namely: ITS Heat Pumps Firefly Heat Pumps SIRAC Southern Africa Our recommendation on which brand to use will depend on the specific site conditions that we find when assessing a site. Our heat pumps span a wide range of heating capacities from 3kW for a small domestic ...
