

Solar home system price United Kingdom

How much do solar panels cost in the UK?

The most common type of system is the 4kW solar system, which costs between £5,000 - £6,000. It can save the average household about £660 per year, provided that they have a decent number of sunlight hours and are installed on a south-facing roof. In 2024, the price of solar panels in the UK can vary depending on several factors.

How many homes in the UK have solar panels?

More than 1.39 million homes in the UK have solar panels, as of June 2024, according to government data. Solar panels not only save you money, but they can also earn you cash, all while helping to reduce the planet's carbon footprint. And they'll still generate electricity on gloomy days, which the UK experiences a lot of.

How much does a 7kw Solar System cost in the UK?

The initial cost for a 7kW solar system in the UK is approximately £9,000, including installation and VAT. While this upfront cost may seem substantial, the long-term savings and potential income from the Smart Export Guarantee make it a cost-effective solution. Financing options such as zero upfront costs can make solar energy more accessible.

How much does a solar panel system cost?

The average package 3kW or 4kW solar panel system with battery, usually comes with a 4kW to 14kW battery. The average price of a solar panel system and battery ranges from £8,500 - £14,000 but can be considerably higher depending on the battery. If you want to include a storage solution you are going to have to pay more upfront.

How long do solar panels last in the UK?

Answer: The payback period for solar panels in the UK typically ranges from 9 to 15 years, depending on factors like initial installation costs, electricity usage, and how much energy you sell back to the grid.

Is now a good time to get solar panels in the UK?

In fact, between March 2023 and 2024, the median cost per kilowatt (kW) for a 0 to 4kW solar panel system has dropped more than 20 per cent. Combine that with the falling costs of solar battery storage, and the fact the energy price cap rose 10 per cent in October 2024, you'll find that now is a great time to get solar panels in the UK.

The 30kW solar system cost in the UK is around £38,000. This 30kW solar system price in the UK includes installation and VAT. Although the initial cost is substantial, the long-term savings and environmental benefits make it worthwhile.
