

Solar panel and battery system North Macedonia

How many solar plants are there in North Macedonia?

This is a huge number for North Macedonia as the biggest solar plant at the moment is only 17MW, with the second biggest being 10MW. According to the RKE 2022 Annual Report, 267 new renewable energy power plants are currently in the works (with solar plants having the biggest part - 254 plants).

What are the challenges for renewable investors in North Macedonia?

The crucial challenges for renewable investors in North Macedonia are: Assessing the possibilities for grid connection- this must be made at earliest stage of the project. Initiation of adoption of a new or amended spatial plan or project for the impacted area.

Should a land conversion procedure be performed in North Macedonia?

Performing a land conversion procedure. As North Macedonia's land is predominantly agricultural, there are only few large portions of privately owned construction land. Therefore, if the land intended for building of a power plant is agricultural, a prior conversion procedure should be performed.

These solar distributors are the ones who deal with homeowners who want to go solar, businesses that work with the solar industry and solar installers who offer solar system services to both residential and commercial customers.
