The best solar energy companies have a few things in common. When hiring a solar installer in New York, you'll want to look for:

Solar panels are typically designed to have a 20- to 30-year lifespan -- although some can produce power for much longer than that. Damage from the elements can sometimes shorten this lifespan, and asset owners may find that they greatly improve their facility's output by repowering before a panel has reached its end-of-life.
