Tesla and SolarCity have announced they have (almost) entirely powered the small island of Ta'u in American Samoa with solar panels. Up to now, the island has had to depend on imported diesel to generate electricity. But, Tesla's new 1.4-megawatt microgrid will now absorb and store enough sunlight to meet most of the islands energy needs.

Lower Levelized Cost of Energy (LCOE): This panel is engineered to provide more power for a lower comparative cost, making your investment in solar energy more efficient and cost-effective. Whether powering a residential home or a large-scale commercial facility, the JA Solar 565W panel provides the efficiency, durability, and reliability you ...
