iCarib is a Saint Lucia based company that offers high quality solar power technology, both for electricity production as well as for hot water supply to all private households and commercial entities who want to support a sustainable lifestyle and cut electricity costs at the same time.

Typical system prices and monthly energy production for 1 kWp, in Saint Lucia, range from US\$3000 to US\$4500 and around 125kWh. Prices for solar PV systems are constantly dropping. Note: PV system sizes are given in kWp, i.e. kilowatt peak.

Solar systems and their prices in Saint Lucia

LUCELEC's search for alternative energy sources has always included solar technology. As the technology matured and costs come down, LUCELEC began to explore solar energy for electricity production from the perspective of small grid-tied photovoltaic systems, rather than a large scale solar power plant.

Rocky Mountain Institute logo. Castries, Saint Lucia, September 29 2017; Today representatives from St. Lucia Electricity Services Limited (LUCELEC) and solar energy firm GRUPOTEC broke ground on a 3 megawatt (MW) solar farm in Saint Lucia, the first ever utility-scale renewable energy project on the island. The 3 MW facility is located near the Hewanorra ...
