Could a new solar panel roof make Rome a green city?

A new solar panel roof has been inaugurated at the Vatican to provide renewable energy to the museum. It's part of Pope Francis' plans to ensure the city state in Rome runs entirely on green energy. Italian energy supplier ACEA installed the photovoltaic roof in just six months in the Courtyard of the Corazze entrance.

How will a solar plant benefit the Vatican?

The Pope has given full authority to two special Commissioners to supervise the plant's construction, ensuring that the project is carried out efficiently and effectively. The energy generated by this solar plant will cover all the Vatican's energy needs, eliminating dependence on non-renewable energy sources.

Where is Vatican Radio's New solar power plant located?

The plant will be located in Santa Maria di Galeria, some 11 kilometers from Rome, where Vatican Radio's broadcasting station is located. Not only will this project generate renewable electricity, but it will also be integrated with the land's agricultural needs, combining modern technology with sustainable practices.

Does the Vatican need a solar plant?

The implementation of a solar plant not only improves the Vatican's environmental sustainability, but also offers economic and social benefits. By generating its own energy, the Vatican can save on light. This is especially relevant in a context where the price of light is a constant worry for many.

3 ???&#0183; Completed in record time almost on the eve of the Jubilee Year, a new photovoltaic system has been installed in the Cortile delle Corazze in the entrance of the Vatican Museums and will produce electric energy from a renewable resource.. With this project, the Governorate of Vatican City State is implementing the guidelines Pope Francis outlined in the Encyclical ...

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in Vatican City varies throughout the year. The wetter season lasts 8.1 months, from September 7 to May 11, with a greater than 20% chance of a given day being a wet day. The month with the most wet days in Vatican City is November, with an average of 9.6 days with at ...

In a suite of efforts, Pope Francis has now declared to the Vatican authorities to carry out the next step: to begin constructing a solar plant within the extraterritorial zone of Santa Maria...

Pope Francis has unveiled plans for a solar plant that will let the Vatican City generate all its electricity from renewable sources. With an area of 121 acres or 0.44km<sup>2</sup> and a population of around 825, the Vatican City in Rome is the smallest independent state in the world by both area and population.
