

Soluzioni etichettate da Solight LTD. Il marchio Solar Impulse Efficient Solution cerca di colmare il divario tra ecologia ed economia, unendo la protezione dell'ambiente e la redditività finanziaria per dimostrare che queste soluzioni non sono costose soluzioni ai problemi, ma piuttosto opportunità di crescita economica pulita.

Solight has designed and developed a highly efficient solar collector that delivers healthy, energy saving sunlight indoors; with unparalleled flexibility and performance. Ofer and I talk about the myriad health benefits of exposure to natural light and he goes on to describe the product and its success across Israel so far. He talks about ...

Solight LTD is developing an innovative, efficient, and affordable static solar lighting system. The Solight system collects sunlight throughout the day and effectively channels it into desired spaces, as natural, healthy, full spectrum, interior lighting. Solight participated in the Innovation Authorities' Incubator Program from March 2014.

Solight's Mini Collector, employs the optimized primary CPC design at with a convenient, Do it Yourself size. The SOLIS Mini is ideal for point lighting of basements via egress windows, mobile dwellings, and small off-grid homes. SOLIS DIY Mini shall be available in Europe on H2 2020.

Solight LTD is developing an innovative, efficient, and affordable static solar lighting system. Solight participated in the Innovation Authorities' Incubator Program from March 2014. Till

The Solight Versatile Collector is a fully static, single stage concentrator, delivering a balanced flux from 08:00 till 16:00, with very high efficiency. Due its simple design it is a cost-effective solution for various installations. Typical applications would include residential, SOHO, Biomass reactors, retail, workshops.

To remedy this, Solight developed an innovative static solar lighting system. Our system, enables efficient and constant harvesting of solar light from 8 AM till 4 PM thereby channeling natural light into desired interior spaces. This reduction drastically reduces interior lighting electricity usage ...
