This is a five-year strategic plan (2023-2028) for the Somali Green Energy Association (SOGEA). The strategic plan has been developed to provide direction to the association and increase its contribution to the development of the green energy sub-sector in Somalia. The plan identifies opportunities to be taken advantage of and threats to mitigate.

1 ??· The project involved installing SRNE off-grid inverters and solar panels on the roof. The system was complemented with efficient energy storage, ensuring reliable power day and night. Results: · Hybrid Energy Usage: The family now uses a combination of solar power and stored energy, drastically reducing electricity costs.
