

Storeh energy storage technologies srl Burundi

StoreH is a energy storage developer company that offers a "hydrogen-on-demand" (HOD) solution for storing energy and producing hydrogen when needed. Their HOD unit uses electricity to extract metallic zinc powder from an electrolyte.

Thrilled to announce that we are officially a member of the Autodesk Technology Impact Program. Thanks to Autodesk & AutodeskFdn for supporting our mission to create positive climate impact! StoreH, let's store our future! Social hashtag: #Autodesk #AutodeskImpact #MakeAnything #StoreH #LetsStoreOurFuture

Based on the revolutionary system "HOD - Hydrogen On Demand", a STOREH proprietary award-winning technology. Clean A process using natural elements like zinc and water, with no polluting materials, guaranteeing zero CO2 emissions.

Find useful insights on STOREH Energy Storage Technologies Srl's company details, tech stack, news alerts, competitors and more. Use 6sense to connect with top decision-makers at STOREH Energy Storage Technologies Srl.

It is an innovative startup that offers a system of energy storage and on-demand production of hydrogen. HOD, Hydrogen On Demand, solves the problem of intermittency and non-programmability of renewable sources by making seasonal energy storage possible.

STOREH Energy Storage Technologies Srl offers an innovative system for energy storage and on-demand production of hydrogen. HOD, Hydrogen On Demand, solves the problem of intermittence and non-programmability of renewable sources by making possible the seasonal storage of energy.
