

Sunew solar Finland

How much solar power does Finland produce in 2022?

The Finnish Energy Authority states that in 2022, solar power production amounted to nearly 635 megawatts—more than a 240 megawatt increase compared to the previous year. Finland still produces fairly little solar electricity compared to leading European countries. The Netherlands, in contrast, produce over seven times more per capita.

Who are the best solar energy companies in Finland?

Alternative Solutions Finland Oy: Solar thermal systems and components, retail. Areva Solar Oy: Turn-key solutions for solar energy. Financing options for large plants. Aura Energia: Holistic energy service provider in Turku area of Finland. Aurinkoinsinöörit Oy: ST and PV-systems design, import of SMA products, turn key projects.

Is solar energy a viable alternative to self-consumption in Finland?

In Finland, solar electricity has so far been a financially competitive alternative only if the self-consumption rate has been high. Now, however, the situation is changing, as solar farms are being built to produce electricity to sell directly to the main grid. Globally speaking, solar energy generation is a massive business.

Can solar power improve the profitability of buildings in Finland?

LUT University has investigated how the profitability of solar electricity could be improved in different types of buildings in Finland. Researchers have debunked myths related to the orientation and dimensioning of solar photovoltaic systems and sales of surplus electricity.

Why should you choose solar Finland?

Solar Finland and its subsidiaries with strong long-term background are experts in all aspects of solar energy. Our extensive know-how and experience of over 40 years make it possible to develop in different areas making our products and services competitive in the solar energy markets both domestically and abroad.

Where is solar Finland based?

Caption: Solar Finland is based in Saloin Astrum Center, which formerly was the headquarters of Nokia. The roof of Astrum Center is filled by a large solar power plant producing energy for the whole building. Tarjoamme kaikki aurinkoenergian tuotteet ja palvelut saman katon alta yli 40 vuoden kokemuksella. Ota yhteyttä!

First time ever, Solar Power Finland will be held May 22nd, 2025 in Kaapelitehdas, Helsinki! The seminar will gather solar power specialists to discuss the developments of the solar power industry in Finland and network. The event will include a top-level seminar, cocktail hour, and networking evening.
