Different solar panels, PV mount & inverter systems available at low wholesale prices.

The ABS solar panel mounting brackets can be used with any aluminium framed solar panel to provide a secure fixing for vehicles, caravans or boats without drilling any holes through the roof. The mounts will support the solar panel at the optimum height above the surface to enable ventilation from underneath, ensuring the solar panel functions as efficiently as possible.

- Alternative Mounting Options: If roof design significantly restricts optimal solar panel angle, alternative mounting options such as ground-mounted systems can provide flexibility. Ground mounts allow for precise adjustment of both ...

3. Mount the rear panel. 4. Attach the Sunny Boy by hanging its upper mounting slots onto the rear panel, so that both mounting plates at the top of the rear panel are fed through the cutouts. Visual inspection: The Sunny Boy is only correctly mounted when both rear panel mounting plates slightly protrude through the cutouts. 5.
