

São Tomé and Príncipe power and sun solar equipments trading l l c

The first phase of the program will include the installation of solar PV plants at the São Tomé international airport, as well as on the island of Príncipe, with capacities of 1.1 kW and 300 kW, respectively. Cleanwatts" local partner Pleno Ambiente STP will undertake the installation, operation, and maintenance works.

The objective is to address this effectively to shorten the solar project turnaround time by 25-30% and with the overall cost reduction of 3-5%, especially for roof top - commercial and industrial installations. As an integrated solar project supplier, we work towards aligning demand chain with required visibility.
