Speak with a Tesla Advisor to learn about Tesla solar products. Ask about benefits, financing options and available incentives in your area. ... Solar Panels. Powerwall Optional. Retrofit panels for your existing roof. Solar Roof. ...

A solar panel system is made up of three basic parts: solar panels, an inverter and a solar gateway. Solar panels capture the sunlight hitting your roof and convert it into electricity. A solar inverter connected to your solar panels converts this electricity into the clean energy that can power the lights and appliances in your home.

Even a North facing roof will generate approx 55% as much energy as a south-facing roof. For example, a 20 year old 10% efficient south-facing solar panel would generate approximately the same amount of energy as a modern north-facing solar ...

If Tesla does not provide service in your area directly, you may be able to place an order where solar panels are installed through Tesla Certified Installers. If your address is out of territory, you can reserve solar and Powerwall.
