See if your state has an exemption on the value the panels add to your home. If they do not, the added value means more property tax over the life of the panels, often in the 10-15K range for the average home and solar install.

The new Tesla Powerwall 3 is going to come with a Tesla solar inverter inside of it that can get you over 11 kilowatts of power in real time to back up your home. The old Powerwall 2 only had 5 kilowatts of capacity, so we're talking about double the amount of continuous power output and backup that the Tesla Powerwall 3 can deliver to your home.

Tesla has unveiled its Powerwall 3, a significant upgrade to its home battery system, capable of delivering peak power of approximately 30kW. This enhancement allows Powerwall 3 to support high-energy appliances such as dryers and air-conditioners, making it sufficient for the energy needs of most homes with just a single unit. According to Tesla CEO - ...
