

Thailand focusun energy systems

Who is focusun energy systems?

Read More Established in the year 2000,we,Coimbatore based Focusun Energy Systems,are one of theleading manufacturer of high quality Solar Products. The product range offered by us comprises Solar Water Heater,Solar Power Plant and System,etc.

Will solar power lead the transformation of Thailand's power sector?

Solar power in Thailand is expected to lead the transformation of Thailand's power sectorwith 22.8GW of new capacity. By then,the proportion of the total installed capacity of solar power in Thailand will rise from 5% today to 29%.

Why does Thailand have a high energy consumption?

It is mainly due to the country's long-term high economic dependence on fossil fuels,which account for about 76% of energy consumption. However,in the past year,Thailand has made significant progress in energy diversification,and the proportion of renewable energy (such as solar power in Thailand) has gradually increased.

What energy sources are used in Thailand?

At present,traditional fossil energy sources such as natural gas and fuel oilstill dominate Thailand's energy structure,and their use for power generation and transportation of domestic household electricity as well as industrial and commercial electricity are generally based on this traditional energy source.

Why is Thailand a good place to invest in photovoltaic technology?

Thailand is well connected to the international marketand is highly receptive to China's advanced technology and various resource information,which is more conducive to the introduction of high-tech technology and funds to develop the localized photovoltaic industry.

Why is Thailand a good place to get solar power?

Thailand is located near the equator,with long sunshine hoursand abundant solar power in Thailand. According to statistics,the central plains of Thailand have higher sunshine hours,reaching an average of 7-8 hours a day. This provides good conditions for photovoltaic power generation.
