The Tile Replacement Mount provides a fast and easy way to install solar on tile roofs while protecting against water intrusion. Simply remove the tile and replace it with the Tile Replacement Mount. Works with standard curved and flat tile roofs, and standard rail-based racking systems.

Choose Tile Energy and the RADIX SolarMount system for a durable, efficient, and adaptable ground mount solar solution. Why our screws are the perfect match for your ground-mounted solar panels One of the significant strengths of our ground screw foundations over a traditional pile driven system is the significant increase in wind uplift capacity provided.

Note! If you mount the panels with the mounting profiles for steel roof, we recommend choosing the high (optimiser ready) mounting profile. This provides sufficient space between the roof and the solar panels. The MLPE Clip Lightweight is simply clicked onto the mounting profile, providing integrated cable management! Then click the MLPE onto ...

Tile Solar Mount

Solar tiles are much more durable than the conventional solar panels that you mount on your roof. While solar panels can last as long as 50 years, they are rigid modules that have been secured to your roof by metal mounts.
