What are the best solar panels in the UK in 2024?

We compared top solar brands to pick the best solar panels in the UK in 2024. We chose SunPower as the best for durability, Project Solar for customer satisfaction, and AIKO as the most efficient. Our experts have researched a broad range of solar panels on the market to help you decide which option best suits your needs.

What are the best solar panels in the UK?

For homeowners who prioritise solar panel efficiency, REC Group's Alpha Pure-Ris an appealing option. With an outstanding 22.3% efficiency rate, these are some of the most efficient solar panels in the UK today. These high quality solar panels also have an excellent power output (430W) and they are known for their durability.

What are the different types of solar panels in the UK?

The two most common options for solar panels in the UK are monocrystalline and polycrystalline. Monocrystalline panels are known for their high efficiency, converting between 15% and 20% of the sun's energy into usable power. They are also more space-efficient, producing more energy per unit area than polycrystalline panels.

How many UK homes will install solar panels by 2020?

Experts predict that more than one-third of UK homes, or almost 10 million households, will install solar panels by 2020. This means that solar systems will generate up to 40% of the total electricity during the summer in the UK.

Which solar panels degrade the most in the UK?

Of all the cases we examined in making this list, Sunpower's Maxeon range has the most impressive first year, and annual degradation rate in the UK today. After one year, the Maxeon's warranted power output will likely fall by 2%, and degrade a further 0.25% every year after. After 25 years, these panels will retain as much as 92% of their power.

Who makes the best solar panels?

We compared manufacturer data, independent reviews, and third party accreditations for all 322 available solar panel models on the market. According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO.
