

# Tuvalu merus power

How TEC is powering Tuvalu with renewable resources?

TEC has set a vision of "Powering Tuvalu with Renewable Resources" and this aligns well with the Tuvalu Government's target of 100% renewable energy by 2025. All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV systems with diesel generators on standby.

Where does Tuvalu electricity come from?

Tuvalu's power has come from electricity generation facilities that use imported diesel brought in by ships. The Tuvalu Electricity Corporation (TEC) on the main island of Funafuti operates the large power station (2000 kW).

What makes Merus unique?

Scalable and modular power electronics, intelligent software technologies, and electrical engineering expertise are the base of our business. Our innovative Merus technology enables the use of our products and services in a wide range of different application needs.

Does Tuvalu have solar power?

All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV systems with diesel generators on standby. For the main island of Funafuti, there are some solar PV systems tied to the grid with diesel base load generators.

Under the Majuro Declaration, which was signed on 5 September 2013, Tuvalu has committed to implement power generation of 100% renewable energy (between 2013 and 2020), which is proposed to be implemented using Solar PV (95% of demand) and biodiesel (5% of demand).

Merus Power is a technology company headquartered in the city of Yläviikki, Finland, where we design and manufacture innovative Finnish battery energy storage systems and power quality solutions. Scalable and modular power electronics, intelligent software technologies, and electrical engineering expertise are the base of our business.

We design, manufacture, and sell innovative Finnish energy storage systems, power quality solutions, and services. Our business is based on modular and scalable power electronics, intelligent software technologies, and electrical engineering expertise.

A sole provider of electricity services to the rest of Tuvalu. TEC has set a vision of "Powering Tuvalu with Renewable Resources" and this aligns well with the Tuvalu Government's target ...
