Intelligent Energy to provide 600kW of PEM fuel cells for US Department of Defence microgrid project; IE's US partner, BWR Innovations, will lead project located at Hickam Air Force Base in Honolulu, HI

Intelligent Pigging Market - Overview Pipeline inspection is an important aspect of the oil and gas sector, primarily due to the need to ensure lesser accident rates. Reports th

Visit us at an exhibition near you to see our solutions in action. News & Blogs. Stay up to date with our latest news . News. 18 Nov 2024. 6 advantages of hydrogen fuel cells for backup power. ... Intelligent Energy Limited is a registered company in England and Wales under Company Number: 03958217.

Equipped with onsite backup generation, a 120kW solar array, a 300kW energy storage system, utility grid interconnection and Lockheed's intelligent control system, the microgrid can reduce costs and maintain a steady stream of energy, as well as storing energy for responding to peak demand and for reliable power production.

Today, the U.S. Department of Energy (DOE) welcomed 25 new coastal, remote, and island communities to the Energy Transitions Initiative Partnership Project (ETIPP) as the technical assistance program's fourth cohort.

Lithium-ion Battery Market was valued at USD 51.57 billion in 2023. The market is projected to reach USD 248.66 billion by 2031, growing at a CAGR of 21.74% from 2024 to 2031. The

The global intelligent pigging market is estimated to expand at 4.89% CAGR during the forecast period. The global intelligent pigging market is set to witness significant growth due to government regulations and mandates regarding pipeline inspection and concerns related to safety of pipelines and energy infrastructure. Lot of incidents has been observed in oil & gas industry as ...

Following a collaboration with Intelligent Energy in 2020, Strongfield now provides ruggedised clean power solutions that feature the latest fuel cell technology. Intelligent Energy's hydrogen-fuelled power module offers a durable, compact, and easy-to-install solution for defence and commercial use.

US Department of Energy (DOE) experts are working with 11 remote and island communities to reduce energy costs and power outages, some by setting up microgrids. The effort, announced April 20, is part of the DOE's Energy Transitions Initiative Partnership Project (ETIPP), which was unveiled late last year.

IE-FLIGHT hydrogen fuel cells enabling zero emission-aviation. IE-FLIGHT(TM) is is our high-power

product line for the aviation sector om 200kW to multi-megawatt scale, these systems have been developed to achieve zero-emission flight over for eVTOL, CS-23 and CS-25 aircraft serving sub-regional and regional markets.

Islands, out of necessity, have become the outposts for trying new technologies, especially renewable ones like wind and solar, in combination with batteries or backup diesel generators. Their creative, often lower cost solutions for sustainable energy, could change the game for remote communities everywhere, experts said.

A new agreement between Intelligent Energy and Ascend Telecom is set to provide efficient power for telecom towers across India. The collaboration focuses on delivering cost-effective, clean energy solutions, efficient energy management and reducing the environmental impact of India's widespread telecom towers across urban, sub-urban and rural ...

Bertam Smart Energy City, Penang IES Digital Twin technology was used to model the entire city of Bertam, supporting the city's aim of becoming the first smart energy city of the state of Penang with 69.7% potential energy and carbon savings identified. [Learn More](#)

The 20 MW/160 MWh intelligent energy storage power station of Feida Group, which was deployed by State Grid Zhenjiang Power Supply Company, leased by State Grid Jiangsu Integrated Energy Service Co., Ltd., invested and constructed by Narada, successfully connected to the grid.
