“Do it, Carl.” With these words Auguste Zoellner encouraged her husband, a businessman from the Rhineland, to take over a battery factory in Brilon-Hoppecke, which was shut down for a short time. Approximately 250 workers were threatened to lose their jobs in the factory that was founded in 1920.

We owe the start of our more than 95-year history to a strong woman: Auguste Zoellner. In 1927, she encouraged her 62-year-old husband, Carl Zoellner, a major merchant from Cologne, to take responsibility for the region and for people affected by unemployment with the words “Do it, Carl.”

In this world, where everything becomes electrical, HOPPECKE is your partner and expert. We understand our customers and with our energy solutions, designed for safety and availability, we serve four principal areas of application: emission-free drives (trac), secured power supply (grid), storage of regenerative energies (sun) and railway and ...
