COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. We have 56 members: 17 national associations and 39 corporate members spanning the entire value chain from technology manufacturers to ...

COGEN Europe is the European association for the promotion of cogeneration. Its principal goal is to work towards the wider use of cogeneration in Europe for a sustainable energy future. Cogeneration or Combined Heat and Power (CHP) is the most efficient way to deliver heating, cooling and electricity.

The United Kingdom has used a standard load factor for new entrant cogeneration installations based on the operational figures for existing cogeneration installations: this results in severe under-allocation for cogeneration new entrants in many industries (refineries

As part of the European Green Deal, COGEN Europe\* organised its annual and digital conference on 12 and 13 October. Kamila Waciega, Director of energy and climate issues at Veolia's Public Affairs Department, presented the association's and Veolia's cogeneration, district heating, and waste heat solutions to achieve a 55% reduction in CO<sub>2</sub> ...

COGEN Europe is the European Association for the Promotion of Cogeneration. We work with the EU institutions and various stakeholders to promote policies and legislation that recognise the valuable role cogeneration technologies have to play in the framework of efforts to boost energy efficiency and reduce emissions.

COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. Its mission is to work with EU institutions and stakeholders to shape better policies and eliminate administrative, regulatory and market barriers to the wider use of cogeneration in Europe.

COGEN Europe has built up an extensive network of partners in Brussels and beyond, including numerous European associations with whom we share information and develop joint activities. Through all the initiatives that we support, we pursue the promotion of an efficient, resilient, decentralised and decarbonised European energy system.
