

Uper energy Wallis and Futuna

This page presents a high-level insight into extreme events and how extreme events differ from mean climate. Extremes are often related to different physical processes than those that govern long-term means. While an average change in precipitation is primarily due to circulation changes, extremes are much more sensitive to the thermodynamic state and conditions during specific ...

The Critical Materials Monitor aims to improve understanding of supply chains essential for the energy transition, the transition to more sustainable energy. It offers insights into the critical ...

Wallis and Futuna is administered by an administrator (administrateur supérieur) appointed by France and is represented in the French parliament by a deputy and a senator. The islands are divided into three admin-istrative districts based on the ancient kingdoms: Uvea (Wallis), Alo (Futuna) and Sigave (Futuna).
