How much will the Wellington North solar project cost?

Upon completion, the Wellington North solar project is expected to generate approximately 700,000MWh of clean energy a year, which will be sufficient to power 116,000 NSW homes. The proposed solar project, which will have an operational life of 30 years, will involve an estimated investment of A\$540m (\$405m).

Who are Wellington solar installers?

Email: [info@greensparksolar.co.nz](mailto:info@greensparksolar.co.nz) Our Wellington Solar Installers are fully qualified electricians with specialist training and experience in off grid solar installation. We do off grid solar power installations for tiny houses and batches as well as large homes, farms and life style blocks up to an industrial size.

Does Wellington have a good solar system?

Wellington gets a decent level of sun hours and off grid solar systems work well there. We supply the best grid tied, hybrid and off grid solar P.V systems using German designed inverters and dual glass solar panels. Please see our contact page to arrange a free solar quote.

Is Wellington ready for a giant solar farm?

Public meeting in Wellington on Wednesday, November 28. Local residents, farmers in the Suntop district southwest of Wellington, are gathering to oppose the installation of a giant solar farm covering one-and-a-half times the area of Wellington itself.
